Things You Ought to Know

As a protection against moths, the soil
should be completely removed from all
draperies, portieres, rugs, etc., before
they are stored for the summer.

If you will send us these articles for
thorough dry cleaning NOW, they will
be ready for immediate use and free
from moth-holes next Fall.

PLAY BIG REUNION FOR BOYS OF GREAT

Richmond Meeting Probably
the Last on Great Scale.
Other Virginia News.

Special Dispatch to The Star.
RICHMOND, Va., June 3.—Two weeks from next Monday the Confederate reunion will be in full swing in this city, when thousands of the old soldiers of the Confederate States army will come here for what is perhaps the last of the affairs on a great scale. The people of Richmond are to do the proper thing in the matter of entertaining the old soldiers, and the state and the city have made an appropriation for the care of the veterans. In former years they have been able to sleep in tents and cots, but they are now of that age and decrepitude that prevents them remaining in the open at night. There will come many women of the south when the reunion begins—the Daughters of the Confederacy, the memorial associations, the sponsors and the like. And right here it is not out of place to say that the former fighters are complaining of the attention given to the sponsors to the neglect of the soldiers, and of the lavish entertainment for them to the exclusion of the veterans. The veterans will begin to reach here two weeks from tomorrow.

Marital Troubles Aired.
From a decree of the law and chancery court of the city of Norfolk Arthur C. Humphreys has obtained an appeal. The case is a mixed affair. Several years ago Humphreys married a Miss Carter in Fairfax county and they made their home in Norfolk. Humphreys died a handsome home to his wife. A few years later she is alleged to have left him, and when he appealed to her she returned. Later she is alleged to have again left him and to have taken up abode at Bend where she sued for divorce and was allowed \$250 a month and counsel fees. She then returned to Virginia and in 1919 she married Richard U. Strong in Washington. Then she brought an action to oust Humphreys from the home she had received from him. After that Humphreys brought suit for divorce from his wife on the grounds of desertion and this was denied, the validity of the Nevada divorce upheld. The case will be argued here this fall and is expected to be one of the celebrated cases in Virginia jurisprudence.

Medical College Assured.
There will be a medical college in this city, according to the members of the Alumni Association, the friends of the school and the business men of this city. Whether the proposed medical college will become a part of the University of Richmond, which is expanding in many ways, or will come a branch of William and Mary College, or with some other institution, is to be determined by the board of trustees. The matter is in the hands of the executive committee and this body is to have a talk with President A. A. Chandler of William and Mary and take the subject up with him. Dr. Chandler is expected to lend hearty co-operation in the matter of retaining the college here, as it will mean an institution to which the graduates from his college can go for the higher professions of medicine, surgery, pharmacy, dentistry and nursing.

TURKISH ATROCITY PROBE SURELY

British Believe Effort Use-
less Unless U. S. Co-
Operates.

BY CONSTANTINE BROWN.
Copyright, 1922.
CONSTANTINOPLE, June 3.—The British proposal to send a commission to investigate the alleged Turkish massacres in Asia Minor is making little progress. The French agree to adhere to the proposal provided a similar commission is sent to the Smyrna district to investigate the alleged Greek retaliations, while the British believe that the work of both commissions will be fruitless without American co-operation.

Yusuf Kemal Pasha, the nationalist foreign minister, declared in the national assembly that the government could not allow any investigation in Turkish territory so long as the report of the allied commission which investigated the reported Greek cruelties in Smyrna in 1920 remained unpublished.

Soviet Treaty Amended.
He also informed the nationalist parliament that a new annex to the bolshevik-Turkish treaty had been signed and would be published early in June. The annex provided new military clauses based on the guaranty by the soviets that "a Balkan country will soon join Russia and Turkey." Though Yusuf refrained from mentioning the country, it is an open secret in the near east that, as soon as Russia decides to adopt an aggressive policy toward her western neighbors, Bulgaria will throw in her lot with the Russians.

The discontent prevailing in Bulgaria since the people have begun to realize that good behavior does not pay in politics is increasing rapidly. Even moderate Bulgarians argue that the Turks, who were defeated by the allies and have been branded repeatedly by the civilized world as murderers of Christians, have been offered better terms because they have shown that they are willing to disturb the peace again, while the Bulgarians, who have faithfully carried out the treaty of peace, are harshly treated.

Grievances Against Allies.
Furthermore, it is added that the allies have not only failed to keep their promise to give Bulgaria an outlet on the Aegean sea, but have allowed Serbia and Greece to take purely Bulgarian land.

BUSINESS WOMEN ELECT.
West Virginia Federation Chooses Miss Virginia Foulk President.
Special Dispatch to The Star.
FAIRMONT, W. Va., June 3.—Huntington was chosen as the next meeting place for the West Virginia Federation, Business and Professional Women's Clubs, which closed its second annual session here after electing the following officers: Miss Virginia Foulk, Huntington, president; Miss Christine Coffey, Charleston, national vice president for state; Miss Ruth Merrifield, Fairmont, first vice president; Mrs. Elizabeth Peck, Morgantown, second vice president; Miss Anna Stephenson, Parkersburg, recording secretary; Miss Edna Ashmond, Huntington, corresponding secretary; and Miss Grace Maxwell, Wheeling, treasurer.

AUTO ACCIDENTS GREATEST LOSS TO ACCIDENT INSURANCE COMPANY

Special Dispatch to The Star.
BALTIMORE, June 3.—The automobile now comes to the front as the most prolific cause of losses to those who insure a dodging humanity against the damage to life and limb likely to be done by falling bricks, speeding joy riders and holes in the street. The figures have been kept and compiled by one of the largest insurance and bonding companies here which caused the heaviest drafts upon its treasury. The automobile is blamed for 25 per cent of the losses from \$10 to \$121, inclusive. Firearmers lead the list in point of numbers of cases, giving rise to thirty-eight losses, while the automobile, causing twenty-three losses, took the lead in the dollars and cents involved.

Falls, until two or three years ago, had been the most expensive class of accidents. An accidental gunshot wound account for 18 per cent of the total of all claims paid in the eleven years some of these "accidents" were suspicious, but proof of deliberate intent was not to be found.

Accidents from hunting most frequently arise from the habit of standing the gun against a fence while climbing over, with the result that a thoughtless movement of arm or leg knocks the weapon over and the hunter is shot.

**ONE CENT DAMAGE
WON BY POLITICIAN**
Maryland Ex-Legislator Sues
Oakland Republican Editor
for \$10,000.

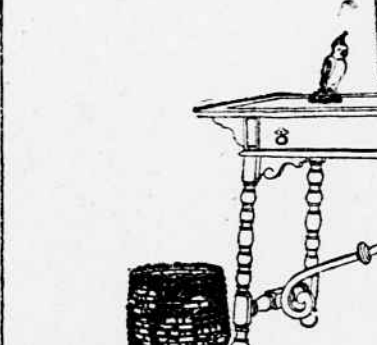

Special Dispatch to The Star.
CUMBERLAND, Md., June 3.—John Shartzer, five times member of the Maryland house of delegates from Garrett county, was awarded one cent damages by a jury in his suit for \$10,000 against Benjamin H. Sincell, editor of the Oakland Republican, published at Oakland, Md., for the publication of an alleged libelous article signed by Frederick Fox in the primary election campaign in September, 1919. The suit is an echo of a bitter factional fight among Garrett county republicans, which was carried into the last election when Shartzer, who defeated Sincell, was renominated, lost out at the polls to John W. McCulloch, democrat. The Shartzer faction having knifed out Sincell, Sincell regards the verdict yesterday as a vindication, as it puts the costs on Sincell. A second suit against Frederick Fox, the author of the article published by Sincell, was continued.

Only one witness was examined in the case, although about twenty-five persons had been summoned from Garrett county and were on hand to testify. The defense decided to let the case rest on the testimony of Shartzer, who, upon cross-examination by Senator Kolb, admitted the characterizations in the circulars of alleged libelous nature, which he (Shartzer) had circulated, were intended for "Ben Sincell principally." The defense, on this admission, contended Editor Sincell had justification in printing the Fox letter, which referred, among other things, to the campaign of Fox for Congress with a query as to what became of his campaign fund of \$2,500, adding:

"In district No. 2 there were three gentlemen who received a little nest egg and when the votes were counted Mr. Blum had just three votes." The court instructed the jury to find for Shartzer.

EASTLAKE AT DAHLGREN.

Special Dispatch to The Star.
FREDERICKSBURG, Va., June 3.—Visitors to this city from Dahlgren, King George county, state that Roger D. Eastlake, United States naval aviation mechanic, has been transferred to the Dahlgren proving grounds, from which station he was moved following the murder of his wife last September.

WITNESSES CLASH IN TRIAL OF MINER

**Spinoza Case Adjourned as
Defense Alleges Deputy
Began Shooting.**

By the Associated Press.
WELLSBURG, W. Va., June 3.—With the evidence far from completed, and one of the defense witnesses still on the stand, an adjournment over Sunday was taken in mid-afternoon today in the trial of Ramon Spinoza, one of the miners charged with violating a federal court injunction by alleged interference with other miners going to work at the Labeled mine of the West Virginia-Pittsburgh Coal Company, just outside of Wellsburg, February 21, 1922. Judge W. E. Baker adjourned court in order to give the numerous witnesses an opportunity to reach the afternoon trains for their homes, but cautioned them to be in the courtroom when the trial is resumed Monday at 10 a.m. There are nearly 100 of these witnesses and others interested in attendance, all from Wellsburg and vicinity.

All of the seven defense witnesses examined today flatly contradicted the previous testimony of the government witnesses as to who started the shooting at the Pike subway bridge on the morning of February 21, leading to charges against the defendants of contempt of court and violation of Judge Payton's injunction concerning this company's mines issued in 1912. Without exception these, as well as the other defense witnesses of the previous afternoon, testified that all the shooting was done by Dan Allemen, guard and deputy sheriff in charge of a squad of non-union miners on their way to work that morning.

DENIES BAN ON JEWS.

President of Harvard Heads Off
Legislative Inquiry.
BOSTON, June 3.—President A. Lawrence Lowell of Harvard University called on Loring Young, speaker of the house of representatives, at the latter's request today, because of the introduction of orders for a legislative investigation of reports that Harvard intends to discriminate against Jews in admission of students.

Speaker Young said he was informed by President Lowell that the only action taken officially or contemplated was the adoption by the faculty of the following vote: "That a special committee be appointed by the president to consider principles and methods for more effectively sifting candidates for admission."
Speaker Young, a Harvard alumnus, added that in his personal opinion "Harvard would remain in the future as it has been in the past, a great university for all the people, based upon the fundamental principle of the greatest service to the community."

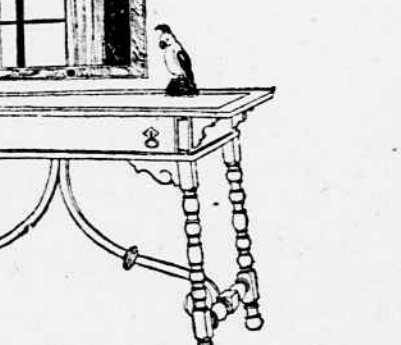

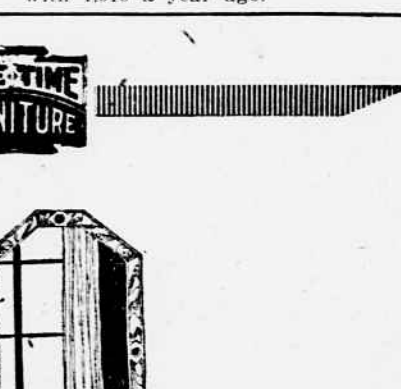

Drownings stand fifth in amount of losses and there were eight cases. Among them was the only claim ever paid in Hawaii, and it arose from the effort of the insurance company to rescue a friend. And then there are accidents that never happen. In all these years, and with thousands of policies outstanding, there are several sorts of claims that have never been paid.

On that list are loss of both hands by actual separation at or above the wrist; both feet by separation at or above the ankles; entire sight of both eyes; speech and hearing; entire and irrevocable; one arm by actual separation at or above wrist; and speech or hearing, if entire and irrevocable.

One of the most interesting things about the figures is that the ratio of death claims to all other specific losses is approximately three to one.

STRAY BULLET HITS BABY.
Special Dispatch to The Star.
BLOOMINGTON, Md., June 3.—Michael, aged two years, son of Mr. and Mrs. Patrick Dugan, as he sat in his cart, his mother working in the garden, was wounded in the cheek. Three boys with a rifle on the opposite side of the river were blamed.

SLUMP IN LAKE FREIGHT.
SAULT STE MARIE, Mich., June 3.—Movement of freight through the canals here during the first full month of navigation ending May 31 aggregated 3,316,645 short tons, according to the report of United States engineers' office made public today. This is a decrease of 2,334,418 tons compared with the movement in the same period a year ago. Vessel passages numbered 1,305, compared with 1,515 a year ago.

As Long as They Happen

And weddings, anniversaries and graduations seem to happen just as regularly as ever. Usually gifts are good, yet seldom are they gifts that will last for long.

A good piece of furniture—not necessarily expensive—is a gift of a lifetime, a gift to cherish more and more with each year of association—you'll find such gifts as you'd like here—and quite low in price, too.

And every piece, too, will be not mere furniture but Lifetime Furniture.

THIRD PLANE READY.

Portuguese Aviators Soon to Be
Some Transatlantic Flight.
LONDON, June 3.—The Portuguese naval vessel Caravelha, which has not fixed at Fernando Noronha with a not hydro-airplane for Capt. Balthazar de Sousa, whose transatlantic flight has been delayed for several weeks as a result of the loss of two of their engines. It is expected that the flight will be continued at an early date.

It's Time for Summer Rugs

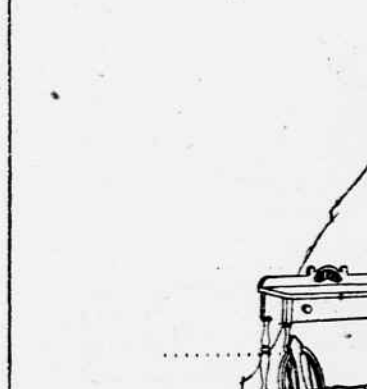

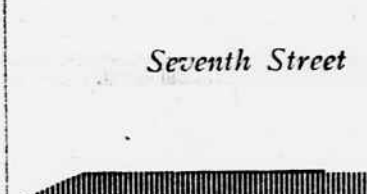

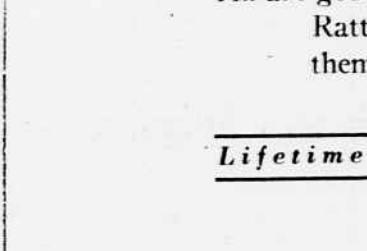

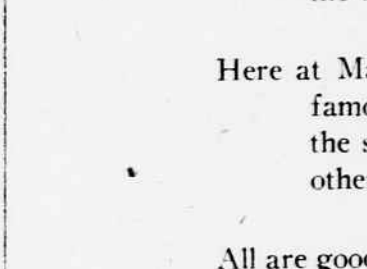

Now is the time to put your wool rugs away and replace them with inexpensive summer rugs. Besides giving a cool-looking appearance, summer rugs will add to the brightness and cheerfulness of your home.

Here at Mayer's Lifetime Furniture Store you'll find the famous Crax rugs, the strong, fine-looking Rattania, the soft, good-wearing rag rugs, and a whole lot of others.

All are good-looking and inexpensive. For instance, a 9x12 Rattania is only \$14.75. Come in this week and look them over.

Dainty as the Breakfasts You'll Serve From Them

Furniture is usually so somber and dark that the light dainty enamels on these little breakfast suites are delightfully refreshing. Just to eat breakfast at one of these little tables is enough to start the day right.

A dozen of these little suites are here for you—and in just about a dozen color combinations. All are beautifully designed and good, too. Particularly good are several by Karpen.

We'll be glad to show you Monday, Tuesday or any other day—and there's a "peach" of a little six-piece suite at \$95.
